Specific skills required for this internship:

(Traditional Summer Internship): For students who are entering their senior year, this program consists of a 10 week program for college students who have their eye on a career in retail and operations management. This experience will expand your knowledge of how store leaders achieve their mission to drive sales and profitability. Interns will spend time gaining exposure to the Ronetco Culture and ShopRite brand, developing leadership skills, working on developmental activities and owning a special project.

1. Work in a variety of departments in the store to understand all the operations of running a multi-million dollar grocery operation which includes accounting processes, ordering and supply chain, marketing & merchandising, labor scheduling, planning, and processes.
2. Select a department in which you want to learn more, effect change, and focus your energy.
3. While working with the store management team, set objectives and goals for the remainder of the internship program and gather data, conduct research collaborate with coworkers and make a formal presentation to the executive committee with your findings at the conclusion of the internship.
